PRE-BOARDING MANAGEMENT DURING THE RED AND BLACK PERIOD

PASSENGERS IN VEHICLES

The passengers by car who carried out the border crossing procedures will be directed to the pre-boarding areas and they will keep their engines off until the time of their boarding. The pre-boarding operation of passengers by car will be divided into 17 spaces of a specific capacity of approximately 180 cars. The pre-boarding from N° 1 to N° 17 will be taken on board the vessel in an ascending order. The pre-boarding numbers will be clearly displayed in each of them.

N.B: please consult the traffic forecasts - phase return - in the back page for red and black periods.
